

MASK CARE CARDS

These are care card instructions to be given with your masks for those who have access to water to cleanse them.

Due to the many circumstances currently, I have been producing many different Mask Care Cards. These currently are best when donating to individuals who you know have access to hot water and detergents.

MASK CARE

Wash your mask before wearing! Use hot water & detergent. Masks can be reworn. Do NOT microwave due to fire risk. ALWAYS wash hands after removing mask or accidentally touching outside. Remove by loops or fabric ties

MASK CARE

Wash your mask before wearing! Use hot water & detergent. Masks can be reworn. Do NOT microwave due to fire risk. ALWAYS wash hands after removing mask or accidentally touching outside. Remove by loops or fabric ties

INSTRUCCIONES DE CUIDADO DE LA MASCARILLA

Estas son las instrucciones de cuidado que se deben dar con las mascarillas a quienes tienen acceso a agua para limpiarlas.

Debido a las presentes circunstancias, he producido diferentes tipos de instrucciones de cuidado. Sin embargo, es mejor darlas a personas que tienen acceso a agua caliente y jabón.

CUIDADO DE LA MASCARILLA

¡Limpie su mascarilla antes de ponérsela! Para esto, use agua y jabón. La mascarilla es reusable. **No la ponga al microondas.** Para sacarse la mascarilla, saque primero el elástico o el tirante del tejido de la mascarilla. **SIEMPRE** lave sus manos después de sacarse la mascarilla o tocarse la cara

CUIDADO DE LA MASCARILLA
